

Synthetic Practice — Pediatric Intake Form

Form completed: 2026-04-25 Form ID: INTAKE-2026-PED-0011

Patient

Name: Dana Pollich

DOB: 2024-01-08 Age: 2 years Sex: F

Parent / Guardian: Sandra Pollich

Chief Concern

Well-child visit. Parent reports low-grade fever last week, resolved.

Current Medications

- None

Allergies

- Aspirin (acetylsalicylic acid) -- anaphylaxis
- Penicillin -- diffuse rash, age 1
- Amoxicillin -- diffuse rash, age 1
- Sulfonamides -- urticaria
- Codeine -- vomiting (parent suspects intolerance not allergy)
- Eggs -- urticaria around the mouth
- Peanuts -- urticaria, parent avoiding
- Tree nuts -- urticaria, parent avoiding
- Latex -- contact rash (noted at prior outpatient procedure)
- Dust mites -- rhinitis, eczema flare

Family History

- Mother: Atopic dermatitis, asthma
- Father: Seasonal allergies
- Sibling: None

Social / Developmental

- Daycare: 3 days/week
- Immunizations: up to date through 18-month
- Developmental milestones: meeting age-appropriate
